PAIN SOCIETY

PARRC

Distinguished Attendees and Supporters,

We are thrilled to extend a warm welcome to you for the upcoming Tri-Alliance Symposium, scheduled to take place from February 29 to March 2 at The Omni William Penn in Pittsburgh, PA. We excitedly anticipate the gathering of industry experts, thought leaders, and innovators for two days of engaging discussions, networking opportunities, and collaborative exploration.

As a valued guest, your participation plays a crucial role in making this symposium a success.

Please check out the Conference Highlights below!

Conference Highlights

1. **Two CME Tracks:** Be in charge of your educational destiny! Attendees have the option to choose from the incredible CME content provided by both the PSA and our partners, the Pennsylvania Pain Society; both of which are included with your registration!
2. **Networking Opportunities:** Connect with like-minded professionals, forge new partnerships, and strengthen existing relationships during our dedicated networking sessions in our bustling vendor hall!
3. **Exhibition Hall:** Explore the latest advancements and solutions showcased by leading companies in our exhibition area. This is your chance to experience firsthand the innovations shaping the future.
4. **Interactive Workshops:** Participate in hands-on workshops designed to enhance your skills, broaden your knowledge, and provide practical takeaways for your professional development.
5. **Social Events:** Join us for evening receptions and social events, creating an informal setting for further discussion and relationship-building.

Best Regards,

Pennsylvania Society of Anesthesiologists

BECOME A MEMBER

The Pennsylvania Society of Anesthesiologists (PSA) has more than 2,400 members across Pennsylvania. Our headquarters is located in Harrisburg, PA. This central location ensures we keep our fingers on the pulse on the legislative and regulatory arenas. Our mission is to stimulate interest and encourage progress in the specialty of anesthesiology. We hope that through membership with PSA, members will have a broadened availability of resources. PSA strives to raise the standards of anesthesiology through its partnership with the American Society of Anesthesiology.

PSA Mission

Advancing the safest patient care through Advocacy and Professional Development.

PSA Vision

Providing the safest, highest quality physician-led care. Creating a better future through innovation, cutting-edge medicine, advocacy, and education.

BECOME A MEMBER

THE PENNSYLVANIA PAIN SOCIETY

The Pennsylvania Pain Society is an association of physicians and healthcare practitioners whose mission is to serve people who suffer from acute and chronic pain by advancing research and treatment and to increase the knowledge and skill of the regional professional community.

Pennsylvania Pain events attracts over 200 pain management specialists, family practice physicians with a clinical interest in pain management, anesthesiologists, orthopedists, physiatrists, neurologists, surgeons, physician assistants, nurse practitioners, nurses, therapists and healthcare professionals from Tennessee and our neighboring States who wish to network and learn the latest techniques, treatments, and options in acute and chronic pain management.

MISSION

To advance the art and science of pain medicine by promoting and maintaining the highest standards of professional practice through education and research; by aiding and encouraging the education of medical students, residents, fellows, practicing physicians, and other health care providers in Pain Management and by obtaining and publishing scientific information in Pain Medicine and management.

PROGRAM OVERVIEW

The Pennsylvania Society of Anesthesiologists and the Pennsylvania Pain Society invite you to the 18th Annual Pennsylvania Anesthesiology Resident Research Conference (PARRC) taking place at this year's Tri-Alliance Symposium.

PARRC is a wonderful opportunity for residents and faculty to learn about current, cutting-edge research by anesthesiology residents from residency programs across the state of Pennsylvania. As you listen to the original research and case report presentations, you will learn about resident scholarly activities performed at each institution.

The target audience for this conference comprises anesthesiology trainees, program directors, department chairs, clinical and research anesthesiologists, and another interested health care personnel.

Learning Objectives:

Upon conclusion of the conference, attendees should be able to:

- Articulate a knowledge of currently conducted original studies and case reports
- Critically evaluate the scientific merit of abstracts presented as either original research or case reports
- Discuss the scientific content of the presented abstracts using question and answer format

VENUE INFORMATION

The Omni William Penn
530 William Penn Place, Pittsburgh, PA 15219
PHONE: (412) 281-7100

It's time to rethink your routine.

Results from the EMMA study show that during routine intubation, the McGrath™ MAC video laryngoscope can:^{1,†}

- Significantly improve first-pass success
- Offer better glottic views
- Yield lower intubation difficulty scores

Improved overall intubation success

99%

Significantly higher first-pass success

94%

Better for all experience levels

92.6%

Among trainees

95.7%

Among experienced clinicians

See the results

The EMMA study:

- Multicenter randomized control trial
- 2,092 adult patients in three countries
- McGrath™ MAC compared to conventional laryngoscopy for first-pass intubation success

For trained personnel only. For specific indications and instructions for use, please refer to the product manual.

†Compared to direct laryngoscopy

‡Success after just two attempts

Anesthesiology Career Opportunities

At Guthrie, we believe in delivering not just health care, but an exceptional health care experience. Our commitment to excellence extends to our caregivers, and that's why we're inviting you, a skilled Anesthesiologist, to join our family.

Here's what we offer:

- A competitive compensation package, ranging from \$525K - \$575K, tailored to reflect your experience.
 - To express our gratitude for choosing Guthrie, we offer a \$25K starting bonus. Furthermore, your dedication won't go unnoticed with our retention bonus of \$25K per year for three more years.
- We understand the importance of work/life balance. That's why we provide 8 to 10 weeks of time off, allowing you to recharge and return with renewed vigor.
- We have an Anesthesiology Residency Program, which gives you the opportunity to teach and mentor.
 - Benefit from our robust EHR system, EPIC, recognized as a 10-Star health system and ranked among the top 1% of EPIC organizations worldwide.

Join us at Guthrie and align yourself with an organization that places patient care at the heart of every decision. Our collaborative environment, backed by a strong support system, ensures you have all you need to deliver the best possible care.

Take the next step in your career with Guthrie. Because here, your expertise doesn't just make a difference—it makes you a part of the Guthrie family.
